## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 112***

Claim 5 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 5 is confusing because it appears to contradict claim 1, from which it depends. Note that claim 1 cites a through hole 24 (see Figure 6 of instant application) which, according to claim 1, is connected to the first oil separation chamber in an upper part, and thus cannot be positioned below the opening (23a, 23b, see Figure 6 of instant application) which, according to claim 1, is formed in a lower part of the first oil separation chamber.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 2, and 5, as best understood, are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Nishida et al (4,103,650). See Figure 5, which shows the first breather chamber 22, second breather chamber 23, opening 24 (lower instance), through hole 25, and outflow port 29.

***Allowable Subject Matter***

Claims 3, 4, and 6 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
